OVERVIEW

Versatile and results-driven front-end engineer with 3 years of proven experience in both traditional Web 2.0 and emerging Web 3.0 technologies. Skilled in delivering high-quality web applications and software solutions across various JavaScript frameworks. Eager to embrace new challenges and take calculated risks while continuously expanding my knowledge.

WORK EXPERIENCE

FRONTEND DEVELOPER, (Contractor)

July 2023 - Present

- Develop scalable components using React.js and TypeScript, while effectively adapting to other frameworks such as AureliaJS and Electron as needed.
- Collaborate on a large-scale Nx monorepo and utilized Storybook for the development and documentation of UI components, emphasizing consistency and reusability.
- Spearhead the development of CI/CD pipelines and project management in startup environments, ensuring efficient deployments and successful project outcomes.
- Foster collaboration within a large team, mentored peers, authored technical documentation, and led onboarding initiatives to facilitate team members' efficient navigation and task completion.

WEB DEVELOPER MENTOR, (Refocus)

Jan 2022 - Sept 2023

- Served as a remote Web Developer Mentor specializing in HTML, CSS, JavaScript, and React, leveraging extensive experience in web development to guide students effectively.
- Contributed to product development initiatives by collaborating with cross-functional teams and providing valuable insights on user experience and functionality.
- Offered student support and counseling through chat on Intercom, fostering a positive learning environment and addressing individual needs.

WORDPRESS DEVELOPER, (Level-Up Outsourcing)

March 2022 - Dec 2023

- Collaborated with a WordPress client to design, develop, and maintain dynamic websites, ensuring optimal performance and user experience through customized themes and plugins.
- Utilized the Gatsby.js framework for a client project, implementing static site generation to enhance site speed and SEO while delivering high-quality, responsive user interfaces.
- Conducted regular client meetings to gather requirements, provide project updates, and ensure alignment on goals and deliverables for both WordPress and Gatsby.js projects.

FULLSTACK WEB DEVELOPER, (Contractor)

March 2022 - Jan 2023

- Designed and built a news website using Next.js and React Emotion, integrated with Contentful as the headless CMS to establish a modern JAMStack architecture for optimal performance and scalability.
- Developed a prototype for a charity website, leveraging the same tech stack to ensure consistency and efficiency, delivering a fast and responsive user experience.

FRONTEND DEVELOPER, (Pragtechnologies Corp)

July 2022 - Aug 2022

- Gained hands-on experience with Next.js, React TypeScript, Tailwind, GraphQL, and Shopify through intensive training.
- Successfully developed a Next.js project using TypeScript and Shopify GraphQL API, meeting key requirements to complete an internship program.
- Collaborated with a team of four to design and develop the prototype of the Pragtech website, utilizing Next.js, TypeScript, and GitLab for version control and seamless teamwork.

EDUCATION

Bachelor Of Science in Information Technology

2018 - 2022

Polytechnic University of the Philippines

- Graduated with Latin Honor **cum laude**

Senior High School

2016 - 2018

AMA Computer College

- Graduated with High Honor

KEY SKILLS
